1000 ltr

Fair Dinkum Fertilizers Gold liquid seaweed is made from freshly collected storm cast Australian seaweed. It contains micro nutrients and plant growth hormones recommended for environmentally friendly and sustainable agriculture. Gold is an alkaline based seaweed and is suitable for general use.

Directions:

If using as a foliar feed, spray in the early morning or late afternoon. Do not apply if the temperature is above 22 degrees C or in full sun.

Home Garden, including Lawns:

Dilute 40ml to 10 ltrs of water. Apply with watering can.

Pasture:

Apply 10 ltrs per hectare. Dilute 1 ltr into at least 20 ltrs of water.

Apply early Spring, late Spring and late Autumn.

Crops:

Apply 10 ltrs per hectare. Dilute 1 ltr into at least 20 ltrs of water.

Apply at early leaf stage and then follow up sprays at 2-3 week intervals.

Gold - 20 ltr

Analysis	
Potassium	3.4 %
Sulphur	0.8 %
Solids	>9.5%
Filtration	100 mic

%W/V is grams per 100ml of product
 ppm is parts per million on weight basis
 g/l is grams per litre
 mic = microns
