## Fair Dinkum Fertilizers

- ✓ 100% Australian Kelp
- ✓ Filtered to 100 micron
- ✓ Suitable for boom sprays and drippers
- ✓ Suitable for grape vines post harvest
- ✓ Added calcium, NPK & trace elements

# High Calcium

NPK seaweed with added calcium

*get fair dinkum...grow naturally!*

20 ltr

200 ltr

1000 ltr

Fair Dinkum Fertilizers High Calcium is a liquid seaweed product designed for situations where there is need for additional calcium in the plant. The calcium in the product is chelated and, unlike most calcium sources, moves in the soil and plant relatively easily. The product is suitable for post harvest treatment of grape vines and fruit trees.

It can also be used in potato production.

**Directions:**

Dilute at least 1 part product to 200 parts of water.

If using in a dripper system flush with water thoroughly after use.

May be applied as a foliar spray if temperature is below 23 degrees C.

Mixing with other liquid fertilizers or insecticides is not recommended.

Grape Vines or fruit trees post harvest:

Apply at rate of 5-8 ltrs per hectare post harvest.

Potatoes:

Apply at rate of up to 10 ltrs per hectare pre emergence or 5 ltrs per hectare post-emergence.

**Analysis**

Nitrogen	3.5 %
Potassium	5.0 %
Phosphorus	4.6 %
Calcium	6000 ppm
Copper	150 ppm
Zinc	145 ppm
Manganese	130 ppm
Boron	110 ppm
Iron	130 ppm
Iodine	40 ppm
Filtration	100 mic
