

Fair Dinkum Fertilizers

- ✓ 100% Australian Kelp
- ✓ Filtered to 100 micron
- ✓ Added NPK & trace elements
- ✓ Suitable for boom sprays and drippers
- ✓ Suitable for general use

get fair dinkum...grow naturally!

Spurt

added NPK & trace element blend

- 20 ltr
- 200 ltr
- 1000 ltr

Fair Dinkum Fertilizers Spurt is fortified liquid seaweed designed to give pasture and crops a growth spurt by combining the plant growth regulators from seaweed with nutrients. Spurt contains plant growth regulators (PGRs), simple and complex sugars including mannitol, amino acids and trace elements including iodine and selenium and potassium. Spurt is not recommended to be used if the soil is dry following a period of drought.

Directions:

Pasture, Lucerne and Fodder crops:

Apply whenever the crop needs a short term boost at 5-7 ltrs per hectare.

Dilute at least 1:10 or preferably 1:25 or 1:50 with water.

Spurt should not be used more than four times a year on pasture unless more than two cuts of hay or silage are taken.

Vegetables:

Spurt may be used on leafy vegetables but its use on young seedlings should be avoided.

Spurt should not be used if frost is a possibility, but can be used when there are low temperatures and non freezing temperatures.

Analysis

Nitrogen	10.0 %
Phosphorus	0.3 %
Potassium	4.8 %
Sulphur	6000 ppm
Copper	300 ppm
Zinc	300 ppm
Manganese	100 ppm
Boron	60 ppm
Molybdenum	10 ppm
Filtration	100 mic

Spurt - 20 ltr

%W/V is grams per 100ml of product
 ppm is parts per million on weight basis
 g/l is grams per litre
 mic = microns
