get fair dinkum...grow naturally!

Superfine

acidic liquid seaweed concentrate

20 ltr

200 ltr

1000 ltr

Fair Dinkum Fertilizers Superfine liquid seaweed is made from freshly collected storm cast Australian seaweed. It contains micro nutrients and plant growth hormones.

Superfine is recommended for environmentally friendly and sustainable agriculture. Superfine mixes with a large number of agricultural chemicals and trace elements.

Directions:

Spray in the early morning or late afternoon.

Do not apply if the temperature is above 23 degrees C or in full sun.

Home Garden:

Dilute 20ml to 5 ltrs. Apply with watering can.

Pasture:

Apply 7-10 ltrs per hectare. Dilute 7-10 ltrs into at least 200 ltrs of water.

Apply early Spring, late Spring and late Autumn.

Crops:

Apply 7-10 ltrs per hectare. Dilute 7-10 ltrs into at least 200 ltrs of water.

Apply at early leaf stage and then follow up sprays at 2-3 week intervals.

Superfine - 20 ltr

Analysis	
Potassium Sulphur	3.5 % 0.9 %
Filtration	100 mic

%W/V is grams per 100ml of product
ppm is parts per million on weight basis
g/l is grams per litre
mic = microns
